

Answering the Who, What, When, Where, Why, and How of Student and Teacher Communication

WHEN

did the pandemic start the changes we're now seeing in student and teacher communication?

- ★ During spring remote learning (between March 6, 2020 and May 6, 2020)
- ★ 48 out of 50 states closed their schools or recommended that all schools in their state be closed
- ★ 55+ million students were impacted

WHO

agrees that students communicate more with their teachers because of technology use in the classroom?

Students agree

Teachers agree

Parents agree

WHAT

percentage of students have a personal smartphone that could be used for communication?

WHERE

do students prefer to communicate with teachers?

Personal emails

Text message

Automated text message

WHY

are district technology leaders now thinking differently about how to safely connect teachers and students?

- 54% say safeguards to protect student data should be instituted.
- 52% discourage students and teachers from using personal accounts and applications for communication.

HOW

can you act on these changes to improve communication between your teachers and students?
